Commissions, trailing commissions, management fees and expenses all may be associated with mutual fund investments. Please read the prospectus before investing. Any indicated rates of return are the historical annual compounded total returns including changes in security value and reinvestment of all distributions and do not take into account sales, redemption, distribution or optional charges or income taxes payable by any securityholder that would have reduced returns. The payment of distributions and distribution breakdown is not guaranteed and may fluctuate. The payment of distributions should not be confused with a fund's performance, rate of return, or yield. If distributions paid by the fund are greater than the performance of the fund, then your original investment will shrink. Distributions paid as a result of capital gains realized by a fund and income and dividends earned by a fund are taxable in your hands in the year they are paid. Your adjusted cost base will be reduced by the amount of any returns of capital. If your adjusted cost base goes below zero, then you will have to pay capital gains tax on the amount below zero. Mutual funds are not guaranteed, their values change frequently and past performance may not be repeated.

On November 17, 2006, Industrial Alliance Investment Management Inc. assumed portfolio advisory responsibilities for the Fund. The Fund's investment strategy was changed as a result of this change. These changes could have affected the performance of the Fund.
