Usually, you will pay income tax on your share of the Fund's income and capital gains if you hold your investment in a non-registered account. The Fund will distribute any income and capital gains annually in December such that it is not liable for income tax under the Income Tax Act (Canada). We will send you a tax slip that shows your share of the Fund's income and capital gains.

Also, you will usually pay income tax on any increase in the value of your investment when you redeem your investment. You must calculate the amount of your gains.

Who is this Fund for?

Investors who:

- Seek income and the possibility for capital appreciation*;
- Have low to medium risk tolerance;
- Plan to invest over the medium to long term.

Before you invest in any fund, you should consider how it would work with your other investments and your tolerance for risk, or consult your advisor.

*Distributions on this series may include a return of capital, which can erode the value of your investment.

Fund Expenses

You don't pay these expenses directly. They affect you because they reduce the Fund's returns. The series did not exist as of December 31, 2010 and so a management expense ratio and trading expense ratio are not yet available for it. The series' expenses are made up of the management fee, operating expenses, trading costs and taxes. The series' management fee is 1.65% of the net asset value on an annual basis. Because this series is new, its operating expenses and trading costs are not yet available.

Trailing Commission

The trailing commission is paid to your advisor's dealer for as long as you own the Fund. We pay the trailing commission out of the management fee paid to us. It is for the services and advice about the Fund your advisor provides to you. The dealer may pay all or part of the trailing commission to your advisor. The rate depends on the sales charge option that you choose.

Sales charge option	Trailing commission
Front End Option	0.70% (\$7 per \$1,000 investment each year)
Low Load Option	First 3 years: 0.30% (\$3 per \$1,000 investment each year) Afterward: 0.70% (\$7 per \$1,000 investment each year)
